SUMMARY OF QUALIFICATIONS

Carnegie Mellon University Computer Science student with experience in software development, game development, and technical instruction. Skilled in C, Python, JavaScript, SML, Lua, UNIX/Linux and Roblox Studio. Passionate about software engineering, game development, and educational technology, with experience creating interactive applications and teaching programming concepts.

EDUCATION

Carnegie Mellon University

Pittsburgh, PA

Bachelor of Science in Computer Science, Minor in Business Administration

Expected May 2028 | QPA: 2.98

Selected Coursework: Principles of Imperative Computation, Principles of Functional Programming, Parallel & Sequential Data Structures & Algorithms, Matrices & Linear Transformations, Calculus in 3D, Computer Music

TECHNICAL SKILLS

Programming Languages: C, Python, SML, JavaScript, Lua

Tools & Technologies: Git, UNIX/Linux, VS Code, Virtual Machines, Roblox Studio, Pygame

Languages: English (Native), Spanish (Conversational), ASL (Conversational)

TECHNICAL PROJECTS

C1 Virtual Machine (C1vm) | C, UNIX

- Engineered a bytecode interpreter in C capable of reading, parsing, and executing C1 virtual machine instructions within a UNIX environment. Implemented execution logic to process complex program inputs accurately.

Fire and Water | Python, Pygame

- Developed a 2D platformer game featuring multi-character controls, collision detection, environmental physics, and puzzle-solving mechanics, simulating the popular game "Fireboy and Watergirl".

Tetris Game Simulation | C

- Programmed an interactive Tetris simulation featuring grid rendering, piece rotation, and real-time piece collision detection.

PROFESSIONAL EXPERIENCE

ID Tech | Instructor (Python 101, Roblox Development, Engineering)

Pittsburgh, PA | May 2026 – Aug 2026

- Taught foundational programming logic, object-oriented concepts, and script development to students aged 7–17 across varied learning styles; adapted STEM instructional strategies to support neurodivergent learners while maintaining PBIS.
- Guided students in developing Roblox experiences using Lua scripting and Roblox Studio.

Boeing Company | Software Manufacturing High School Intern

Huntington Beach, CA | June 2022 – Aug 2022

- Developed an automated JSON data validation system using proprietary software to improve data accuracy and workflow reliability. Integrated the system into an existing communications pipeline, supporting quality assurance across project teams.

Carnegie Mellon University Conference & Event Services | Summer Program Assistant

Pittsburgh, PA | May 2024 – Aug 2024

- Consolidated, updated, and audited administrative database records for over 10,000 student attendees, resulting in increased software efficiency and usability on both the administrative and client perspectives.

Math Tutor | High School Math Tutor

Huntington Beach, CA | August 2021 – June 2023

- Tutored students in 8th grade math-Precalculus, developing individualized lesson plans and supporting academic growth.

LEADERSHIP & ACTIVITIES

Student College Instructor: Sign Language through Pop Music

Jan 2024 – Present

- Led undergraduate peer-learning sessions across 3 semesters at Carnegie Mellon University.

Women's Volleyball Club

Sept 2023 – Present

- Active member participating in team practices, regional collegiate tournaments, and campus athletics events.
